SERIOUS ABOUT SLEEP

Essential Comfort

Essential Support

PostureSupport

PosturePlus

PostureAdvance

Essential Comfort

FOR QUALITY AND COMFORT

With a primary focus on comfort and quality, the EssentialComfort Range is designed to provide you with years of satisfying sleep.

Created with the utmost attention to detail and a level of care, our EssentialComfort Range utilizes all of the tried and tested bedding technologies to provide a quality mattress and quality sleep.

Available in Firm, Medium & Plush.

LUXURY SHEET FOAM

Providing an additional soft layer to the mattress, for extra support and durability with a longer lifespan. The inclusion of additional luxury sheet foam also allows for a more comfortable sleeping surface, ensuring you enjoy a more pleasant sleep.

Essential Comfort

FOR KIDS*

Also on offer is the EssentialComfort Range for your children. We at Crown Posture understand full well the importance of sleep, especially for adolescents, as children undergo the majority of the physical and mental development while they sleep. That is why we have designed our EssentialComfort Range in kids size.

- * This will provide your children the adequate comfort and support they need while sleeping, allowing their minds and bodies to grow to their fullest potential.

ANTIMICROBIAL

Providing protection from the growth and spread of bacteria, dust mites and other micro-organisms. This provides a healthier and cleaner sleep surface, allowing you a more peaceful night's rest.

EssentialSupport

FOR QUALITY AND SUPPORT

Offering quality support and comfort with its edge to edge pocketed coil spring, the EssentialSupport Range provides a highly adaptive mattress which conforms to your individual shape, allowing you to sleep more comfortably throughout the night.

With its adjustable base compatibility, EssentialSupport is an ideal mattress allowing you to rest in whichever position you prefer most. Its Zero G feature provides the perfect position to relax in whenever you feel like watching TV or reading a book.

Available in Firm, Medium & Plush.

ADJUSTABLE BASE COMPATIBLE

Thanks to our zone pocket spring technology, our EssentialSupport Range is able to easily be adjusted at their top and bottom. This creates an even more comfortable shape for you to read, watch TV and even sleep.

3 ZONE POCKET SPRING SYSTEM

Helps deliver conforming back support and pressure relief.

AUSTRALIAN MADE COMFORT LAYERS

Each of our mattresses provides varying high-density comfort layers, designed right here in Australia, to help improve support, responsiveness and durability. Due to each layers incredible resiliency, our mattresses are designed to last, providing you with years of comfort and support.

BEKAERT DESLEE JACQUARD DAMASK

The world's leading specialist in the development and manufacturing of mattress textiles, covers and sleep solutions. Bekaert Deslee utilizes smart and stylish mattress fabrics that will provide comfort and support through keeping you cool and dry, thus improving the overall quality of your sleep.

Through its innovative and smart mattress covers, Bekaert Deslee adds both value and comfort to any mattress with its advanced sleep solutions.

PostureSupport

OUR GOOD RANGE

Our PostureSupport Range has been specifically created to embody everything you need for a comfortable and supportive night's sleep. With its 3 zone pocket foam box system designed to mould and conform to your body, along with the additional benefit of foam with gel infused particles for heat distribution, our range of PostureSupport mattresses will ensure you are provided a peaceful night's sleep.

Available in Extra Firm, Firm, Medium & Plush.

FOAM WITH GEL INFUSED PARTICLES

Foam with Gel Infused Particles is designed to distribute heat away from the body while increasing responsiveness allowing you to move more freely through the night. With a firm yet comfortable sleep surface, it moulds to your body to provide comfort where it's needed most, while preventing you from sinking into the mattress.

Foam with Gel Infused Particles responds to your body's weight and relieves pressure points, which in turn relieves discomfort from back aches and pains. This is achieved through unrivaled support, as the foam assists in keeping your spine properly aligned while you sleep. All these benefits provide you a more comfortable and peaceful night's sleep, allowing you to wake up refreshed the next morning.

3 ZONE POCKET FOAM BOX

PostureSupport is a 3 zone pocket mattress which contains a comfort layer of body moulding memory foam. This range provides pressure-relief, support and comfort for your entire body and is divided up into soft support for your shoulders, while still providing firm support for your hips and lower back, allowing you to achieve an optimal night's sleep.

MINIMAL PARTNER DISTURBANCE

Each of our mattresses offer a unique comfort as it reduces motion transfer, allowing you and your partner to sleep soundly without being disturbed.

ADJUSTABLE BASE COMPATIBLE

Thanks to our zone pocket spring technology, our PostureSupport Range is able to easily be adjusted at their top and bottom.

PosturePlus

OUR BETTER RANGE - A NEW LEVEL OF COMFORT

A benchmark product of the Crown Range the PosturePlus Collection has been re-engineered with PosturePractic™ spring technology – providing consistent, full-body support. Offering spinal alignment and temperature regulation, this range has been designed to comfortably accommodate varying body types and heights. It encompasses everything that is included in our PostureSupport Range, along with these additional technologies to provide an even more peaceful night's rest.

The PosturePlus Range is a bedroom essential, providing you with ultimate luxury through its usage of gel-infused memory foam.

Available in Super Firm, Firm, Medium & Plush.

POSTUREPRACTIC™ 5 ZONE POCKET SPRING SYSTEM

With its 5 zone pocket foam box, PosturePlus provides further comfort and pressure-relief to your body as it moulds to its shape. To achieve balance, our 5 zone mattresses are designed with three key principles. The first, to provide support to the lower back while assisting with spinal alignment, the second, to reduce the discomfort on pressure points, such as in the hip region, and the third to evenly distribute your weight across the five zones of the mattress, thus also minimising partner disturbance.

WOOL BLEND QUILT LAYER

Woolen fabrics are a natural and sustainable material that have the added benefits of breathability in both the colder and warmer months. Wool is very soft, naturally soil resistant and cleans easily, while being extremely durable and long lasting. Due to its insulating properties, we use wool in our top panels to ensure a breathable, more restful sleep.

GEL INFUSED MEMORY FOAM

Memory Foam with Gel Infused Particles is designed to distribute heat away from the body while increasing pressure relieving responsiveness allowing you to move more freely through the night.

STRENGTHENED PERIMETER EDGE

Edge support is the amount of resistance a mattress provides around the edges, which also helps to give it its overall shape. Our range of mattresses include a strengthened side wall system, which assists in providing more support and less sagging towards the edge. With strengthened assistance on all sides, our mattresses allow you to comfortably sit on any side of the bed, while still maintaining a firm surface. This is most important for anyone with hip or joint pain, or who have a difficult time getting up from a low position.

PostureAdvance

OUR BEST RANGE - THE PINNACLE OF COMFORT

The most advanced cooling and support system, the PostureAdvance Collection is the ultimate in techno-luxury in the Crown Posture Collection. With Style and Innovation, this range has been designed to comfortably accommodate varying body types and heights offering a temperature management story.

The PostureAdvance Range provides you with support, temperature regulation and more importantly, a queen coil count of 2360, making it one of the most supportive mattresses at exceptional value as well as featuring the latest cooling technologies in mattress manufacturing.

Available in Super Firm, Firm, Medium & Plush.

SENSICE™ COVER

Temperature plays a key part in the process of falling asleep. Our body needs to drop in temperature before we can start to doze off, so in order to quickly fall asleep, we need to find that temperature 'sweet spot'. SensiCE does just that! SensiCE mattress textiles are hyper-conductive, they take heat away instantly, resulting in a comfortably cool effect.

NANO MICRO POCKET SPRING

These fine wire coils contour to the sleepers individual body shape, whilst creating an airflow layer.

ADJUSTABLE BASE COMPATIBLE

POSTUREPRACTIC™ ADVANCE

With a 7 zone pocket system, our PostureAdvance Range offer the greatest level of support for your body wherever you need it most. Each zone assists in supporting a specific section of the body, from the head and neck right down to the ankles and feet. The individual coils provide superior contour and support, with the added bonus of adjustable base compatibility. It greatly reduces motion transfer and the zoning provides optimal comfort. With each section of the body given its own support, you can rest assured that you will be able to have a peaceful and rejuvenating night's sleep without the hassle of back or joint pain.

GRAPHITE FOAM COMFORT LAYER

Along with the benefits of gel infused memory foam, our PostureAdvance Range also includes an additional layer of graphite foam, that combines the benefits of memory foam and graphite to create the ultimate sleep experience. This combination provides a super breathable surface that disperses heat, keeping you cool throughout the night, while providing a very responsive, pressure relieving and comfortable feel thanks to its open cell structure. Additionally, graphite provides a stronger and more durable material, meaning our PostureAdvance mattresses will be better for longer.
